Serial No.: 10/637,081

Date: 21 July 2006

The Examiner contended that the solid medium including catholyte particles of Invention I does not need to be made solely by the method of Invention II.

Applicants provisionally elect the apparatus of Invention I claimed in claims 1-8 and 15-20 while reserving the right to file an additional patent application on Invention II, claims 9-14.

The Examiner is invited to telephone Jean-Paul A. Nasser, Attorney for Applicants, at 401-832-4736 if, in the opinion of the Examiner, such a telephone call would serve to expedite the prosecution of the subject patent application.

Respectfully submitted,
STEVEN P. TUCKER, et al.
